CANON UNIVERSAL FRAME FINDER

Especially suitable for photographing fast-moving action such as sports events and for night photography. Field of view is variable for lenses with focal lengths of 50mm, 85mm, 100mm and 135mm. Parallax compensating scale is incorporated.

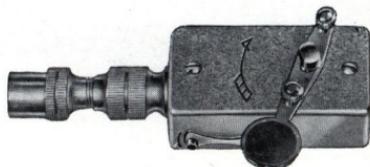

with case.....¥ 2,700 (\$ 7.50)
without tax ¥ 2,150 (\$ 5.97)

SELF-TIMER

May be set for any delay time up to approximately 10 seconds. It may be left mounted on the camera even when winding the film and cocking the shutter as the plunger automatically retracts after release.

with case.....¥ 800 (\$ 2.22)
without tax ¥ 620 (\$ 1.72)

CANON COMBINATION LENS ATTACHMENTS

Cover all Canon lenses and facilitate the use, singly or in combination, of filters and lens hoods. Except for the lens hood for the 85mm f: 1.5 lens, all attachments come in two sizes: Series VI and Series VII.

The diameters of their mount screws are either 34mm or 40mm for Series VI and 40mm or 48mm for Series VII. Under this system numerous attachments are interchangeable.
