## EOS ELAN II E

# Accessories

EOS 50E / EOS Elan II E accessories expand picture-taking possibilities.

**Speedlite 380EX**

E-TTL autoflash Speedlite with autozoom head. Just press the shutter button for easy flash photography. The flash exposure is set automatically to suit the shutter speed or aperture you set. Advanced features include high-speed sync (FP flash) which enables the flash to synchronize at all shutter speeds, FE lock, and second-curtain synchronization. Multiple Speedlite 380EXs can also be linked for sophisticated lighting setups.

- E-TTL refers to Evaluative TTL which uses evaluative flash metering.

**Anti-fog Eyepiece Ed**

The eyepiece's glass is coated with a special anti-fog polymer to prevent eyepiece fogging in extremely low temperatures or extremely high temperatures in high humidity.

**Remote Controller RC-1**

This trips the camera shutter remotely up to 5m/16.4ft away. It can trip the shutter immediately or after a 2-sec. delay. Convenient for including yourself in a group shot, long exposures, and close-ups.

**Battery Pack BP-50**

Lightweight and compact external power pack. It enables the camera to be powered by easily obtainable size-AA batteries or 2CR5 lithium batteries instead of the camera's internal lithium battery. The vertical grip also has its own shutter button.

# EOS 50E / EOS Elan II E System Accessories

## Speedlites

**Speedlite 550EX**  
Powerful shoe-mount Speedlite with many advanced features. Maximum Guide No. 55 (at ISO 100 in meters).

**Speedlite 380EX**  
Compact, zoom flash unit with high flash output. Maximum Guide No. 38 (at ISO 100 in meters).

**Speedlite 220EX**  
High-performance, compact flash unit. Maximum Guide No. 22 (at ISO 100 in meters).

**Macro Ring Lite ML-3**  
Flash unit dedicated to close-up flash photography with macro lenses. Guide No. 11 (at ISO 100 in meters). A mini lamp for focusing is built-in.

## Viewfinder Accessories

**Anti-fog Eyepiece Ed**  
Prevents the viewfinder from fogging.

**Eyecup Ed-E**  
Blocks stray light from entering the viewfinder to make the viewfinder image look clearer.

**Magnifier S**  
Magnifies the center of the viewfinder image by 2.5X to aid critical focusing. For the EOS 50E / EOS Elan II E, Angle Finder Adapter Ed II should be first attached to the camera. It cannot flip up with the EOS 50E / EOS Elan II E.

**Angle Finder B**  
Enables you to view the viewfinder from a low angle. For the EOS 50E / EOS Elan II E, Angle Finder Adapter Ed II should be first attached to the camera.

**Angle Finder Adapter Ed II**

**Viewfinder image with Magnifier S**  
Since the center of the viewfinder image is magnified, more precise focusing can be achieved for close-up shots.

## Power Packs and Grips

**Hand Strap E1**  
Lets you securely hold the camera with one hand when using the Battery Pack BP-50.

**Battery Pack BP-5B**  
High-capacity battery pack (must be used together with BP-50.) containing four size-D batteries.

**Battery Pack BP-50**  
This enables the camera to be powered by size-AA batteries or 2CR5 lithium batteries.

## Remote Control Accessories

**Remote Switch RS-60E3**  
Dedicated remote switch to prevent camera shake. For use with a tripod-mounted camera.

**Remote Controller RC-1**  
Use this to trip the camera shutter up to 5 meters away.
